

As a listener of Positive and Encouraging Radio Station of K-Love, it is my concern that there could be a possibility that with changes in FCC regulations, it might come off the air. I have been listening to K-Love over 2 years now and not only is it part of my life and of the lives of many. With K-Love I have been able to make even riding in my car a positive experience. Now many of my friends have adapted K-Love as part of their lives because no longer does it have to be some burden trying to find a radio station that is that the whole family can hear without worrying if it is going to be offensive to any of them. That is one of the main reason I love K-Love it is not only does it have a positive message, but at the same one that is relaxing and goes more than just play songs but really helps those in need.
